

Cash Proffers

Revenues and Expenditures

November 1, 2012

Virginia Department of Housing and Community Development

Proffers

- A proffer is a voluntary offer by a landowner during the rezoning process.
- Proffers impose additional requirements to those required by the underlying zoning, usually to mitigate an impact related to the proposed zoning.
- Proffers result in conditional zoning, i.e. land that is zoned, with conditions attached.

Cash Proffers are cash payments
voluntarily proffered in writing to offset the
impact on capital facilities generated by
rezoning property to permit additional
density.

Virginia Department of Housing and Community Development

- § 15.2-2302.2 governs the use of cash proffers once collected.
- For proffers pledged after 7/1/05, within seven years of full payment of all cash proffers associated with an approved rezoning application:
 - The locality must begin construction, site work, engineering, right-of-way acquisition, surveying, or utility relocation on the improvements for which the cash was proffered.

 Otherwise if seven years lapse with no progress toward completing capital improvements, the locality shall forward the amount of the proffered cash payments to the Commonwealth Transportation Board for allocation to that locality's secondary or urban system construction program.

Virginia Department of Housing and Community Development

- Unless prohibited by the proffers, a locality may use proffered cash for capital improvements for alternative improvements of the same category within the vicinity of the improvements for which the cash was originally proffered.
 - Profferor must be notified, public hearing must be held, and governing body must make certain findings.

- Unless prohibited by the proffers, a locality may use proffered road/transportation funds proffered as matching funds for the VDOT Revenue Sharing Program.
 - The proposed revenue sharing project must be in the locality's capital improvements program.
 - There appears to be no requirement on how the project relates to the property from which the proffered funds originated.

Virginia Department of Housing and Community Development

- Beginning in FY2007:
 - CIPs must include all proffered payments received during the most recent fiscal year.
 - Capital Budgets must include the amount of proffered cash payments projected to be used in the ensuing year.

Reporting Requirement

- Localities with population in excess of 3,500 must report proffer collections and expenditures (by category) to the Commission on Local Government.
- Data has been collected for years FY2000 to present.

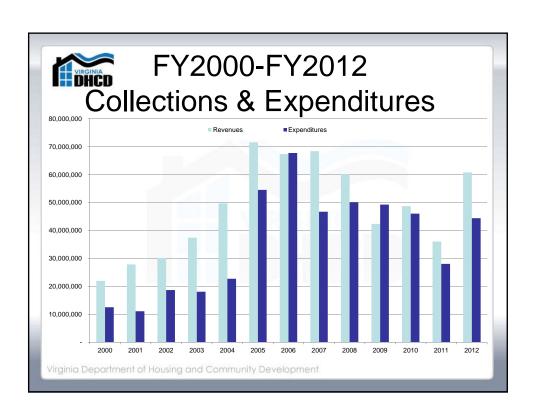

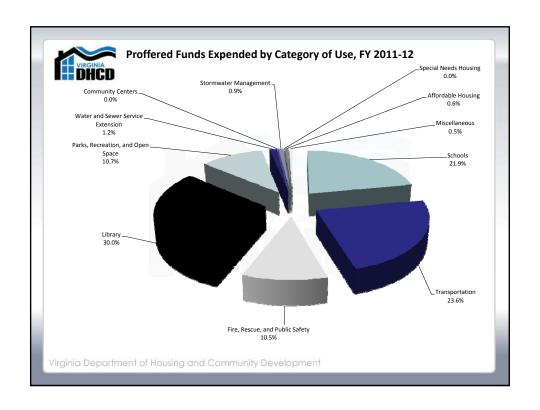

Cash Proffer Survey 2012

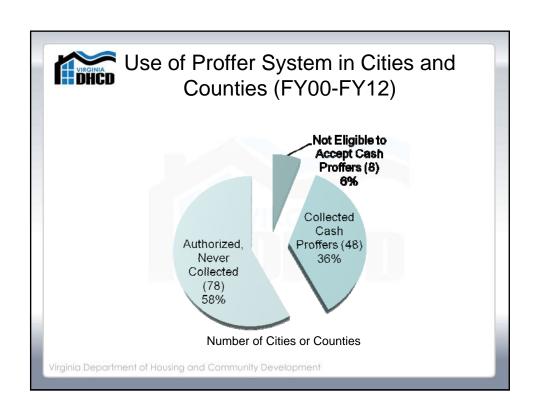

- In July 2012, Commission staff mailed the survey instrument to the local governments that are required to report cash proffer activity.
- Responses were due by September 30th.
- 100% response rate achieved (since the report's inception)

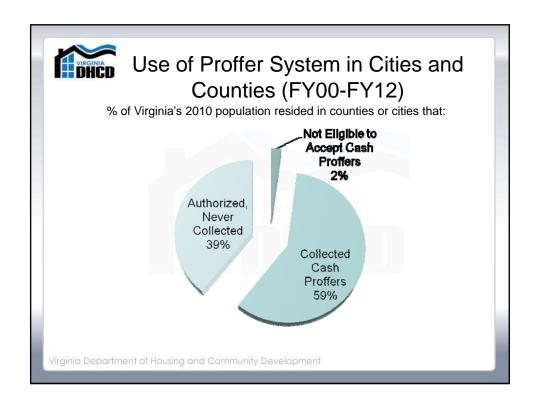

2012 Proffer Survey Results

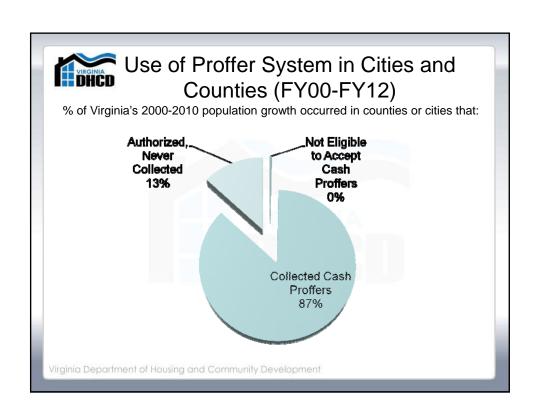

- 7 Cities, 26 Counties, and 5 Towns (38 jurisdictions) reported cash proffers collected or expended in FY12.
- Collected: \$60.76 million
- Expended: \$44.37 million

Supplemental Survey Questions

- In response to the request of the Housing Commission, and in consultation with VACo, VML & High Growth Coalition, CLG requested supplemental information from select localities.
- Those selected were jurisdictions with over \$1,000,000 in proffer revenue or expenditures in the previous five years.

Virginia Department of Housing and Community Development

Supplemental Question Localities

- Chesterfield
- Fairfax County
 Loudoun
- Frederick
- Hanover
- James City
- Prince William
- Spotsylvania

- These eight counties also:
 - Represent 31% of Virginia's 2010 population.
 - Had a combined growth rate of 26% during 2000-2010, compared to the statewide rate of 13%.
 - Absorbed 56% of Virginia's 2000-2010 population growth.
- These localities collected 87.89% and expended 89.64% of FY00-FY12 reported proffers.

Virginia Department of Housing and Community Development

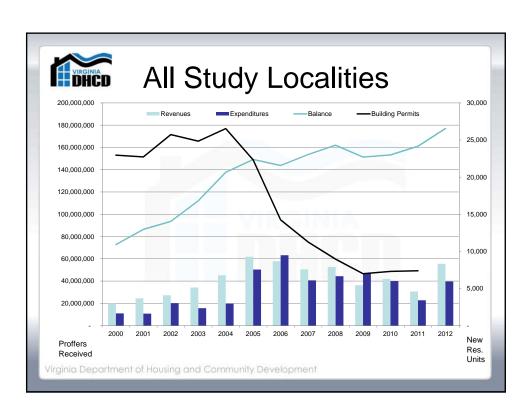

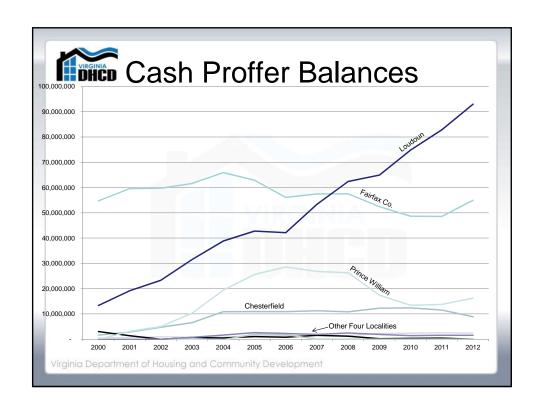

Supplemental Questions

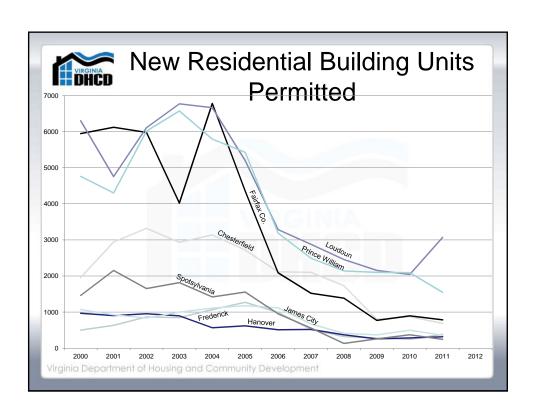

- These eight localities were requested to provide:
 - Annual proffer revenue and expenditure data for FY00-FY12.
 - FY12 end-of-year balance for proffer funds.
 - Copies of cash proffer policies.
- Normally, the annual survey only asks for the prior year's revenue and expenditures.

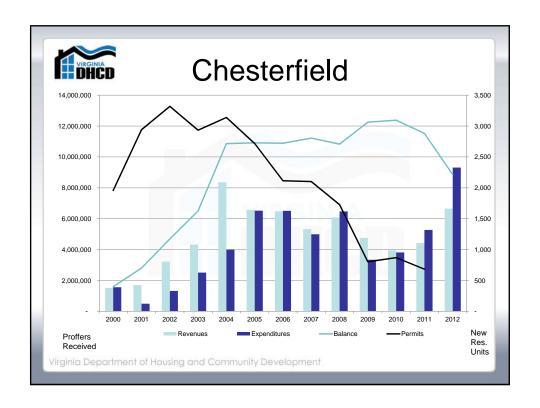

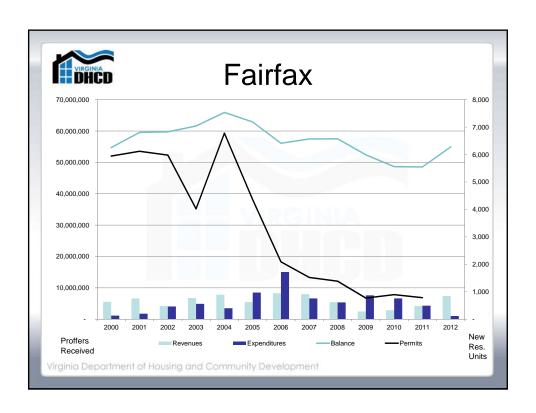

- All of the eight localities responded; however, two (James City and Fairfax Counties) were unable to provide data back all the way to FY2000.
 - Previous cash proffer report data was substituted for those jurisdictions.

Revenue and expenditure data for Fairfax County was only provided from FY03-present, and for James City County from FY09-present. Archived data was substituted for these values. Balance information was provided only for FY12. Prior year balances were imputed from the FY12 balance and prior year revenue and expenditure data. Building Permit information is from the Weldon Cooper Center. FY12 data is not yet available.
